

NAVIGO Order Form

NAVIGO™ Joystick Power System

The NAVIGO joystick power system is an intelligent mobility solution that can be added to a manual wheelchair frame. The transportability of the NAVIGO gives the rider additional options for full or part time powered mobility. The NAVIGO joystick system includes:

Joystick Controller

Pair of 24" or 16" Wheels

Battery, Backpack and Charger
(Nickel or Lithium)

Standard Mounting Hardware

Standard mounting hardware included for some common horizontal and vertical axle plate types*
